

# AN EXCEPTIONAL NATURAL SITE FOR WOW STAYS!

When the purpose of travel is to open us up to life, to others, in the discovery of a universe that is precisely not our everyday life...

When nature's ultimate mission is to reconnect us to our humanity, in the rediscovery of our beautiful nature and its omnipotence, to accompany us towards the best of ourselves...

When it's possible to find a change of scenery beyond our dreams, in the very heart of France...

it would have been inconceivable not to come up with a holiday that takes you on a journey through lakes, forests and peat bogs.

**Because that's precisely the flavour of the ecolodge.**

## Cantal Grand Spectacle

Secret as an enclave in the heart of France, "instants d'Absolu" is a place out of time, a haven of peace where rare memories are made, combining a naturalist approach, isolation and support for well-being, with an epicurean and even more "epi-curious" philosophy of life.

It's a place that lovers of safaris and untouched natural spaces love, both for the sunrises shrouded in a summer morning mist and for the blaze of the landscape at sunset, with the Cantal mountains as a backdrop.

From spring 2025 onwards, all year round and seasonally, here's a **new exclusive all-inclusive holiday** offering you the chance to experience the best of the Cantalien highlands at the heart of a volcanic journey from the Cézaillier high plateaux to the Cantal mountains.

**This trip is designed for a small group of 4 to 10 people maximum and offers you a confidential, unique experience, emblematic of this region - UPON REQUEST -.**

## The luxury of Nature exuberance

**Because that's precisely the flavour of the ecolodge.**

**Season after season, we concoct offers of a change of scenery and wonder beyond your dreams...** as a tribute to the Millennials who, without necessarily having the desire to drag their bags to the 4 corners of the world, nonetheless have a taste for marvelling at the rugged beauty of the outdoors, confronting this raw nature which suddenly makes us realise that **Cantal is a forgotten, unspoilt land. A land of unforgettable encounters and discoveries.**
